Camber Energy Announces Closing of Asset Acquisition

SAN ANTONIO, TX / ACCESSWIRE / March 14, 2018 / Camber Energy, Inc. (NYSE American: CEI) (the "Company" or "Camber"), based in San Antonio, Texas, a growth-oriented, independent oil and gas company engaged in the development of crude oil, natural gas and natural gas liquids, announced the completion of its previously announced pending acquisition of a 75% working interest in certain leases, wells and equipment located in the Texas panhandle, for a purchase price of \$250,000, payable in three tranches. A payment of \$85,000 was due at closing; \$85,000 is due thirty days after closing and \$80,000 is due sixty days after closing. Camber earned 25% of the working interest at the closing and will earn an additional 25% of the working interest (up to the full 75% working interest) at each of the two subsequent closings. The seller will retain a 25% carried working interest in the assets.

The acquisition includes 49 non-producing well bores, 5 saltwater disposal wells and the required infrastructure and equipment necessary to support future hydrocarbon production as well as approximately 500 net leasehold acres in Hutchinson County, Texas. Camber is currently evaluating hydrocarbon production opportunities across all of the acquired acreage including the existing non-producing well bores for workover opportunities. In the next few weeks, the Company plans to begin the process of reestablishing production from some of the non-producing well bores.

This acquisition with its opportunities is all consistent with Camber's previously announced plans to acquire lower risk properties which offer opportunities to increase reserves and cash flow.
