ITEM 2.04 TRIGGERING EVENTS THAT ACCELERATE OR INCREASE A DIRECT FINANCIAL OBLIGATION OR AN OBLIGATION UNDER AN OFF-BALANCE SHEET ARRANGEMENT.

On January 26, 2015, Lucas Energy, Inc. (the “Company”, “we” or “us”) received notice from a representative of Louise H. Rogers, who is the lender to us under that certain Letter Loan Agreement, as amended effective on August 29, 2014 (the “Amended Loan Agreement”, as described in greater detail in the Current Report on Form 8-K filed with the Securities and Exchange Commission on May 1, 2014) in the principal amount of approximately \$7.7 million as of September 30, 2014, that we had defaulted in the payment of principal and interest due under the terms of the Amended Loan Agreement.

Specifically, we failed to make a required \$266,000 payment of principal due on December 13, 2014 pursuant to the terms of the Amended Loan Agreement. Consequently, since December 13, 2014, the amount owed under the Amended Loan Agreement has accrued interest at the default rate, 18% per annum. In addition to the above, we also failed to make the required January 2015 interest payment due under the terms of the Amended Loan Agreement, which failure was waived by Ms. Rogers.

Notwithstanding the above, Ms. Rogers has not taken any further action under the Amended Loan Agreement in connection with the default; however, she reserves all rights and remedies available to her as a result of such default.

LUCAS ENERGY FINANCIAL OBLIGATIONS AND OPERATIONAL UPDATE

January Interest Payment Waived by Lender With No Further Action Taken To Date

HOUSTON, TEXAS –January 30, 2015 – Lucas Energy, Inc. (NYSE MKT: LEI) (“Lucas” or the “Company”), an independent oil and gas company with its operations in Texas, today announced that the Company has failed to make a required principal payment that was due on December 13, 2014 under the terms of the Amended Loan Agreement. Specifically, on January 26, the Company received notice from a representative of our lender that we had defaulted on a payment. Consequently, the amount owed under the loan agreement of approximately \$7.7 million will accrue at a default interest rate of 18% per annum. No further action has been taken by our lender, who has also waived a required interest payment, which we also failed to pay, that was due in January 2015. The lender has also reserved the right to enter into an amended agreement with Lucas at any time or to enforce other rights under the agreement as a result of such default.

“The plunge in crude oil prices has required us to reconsider all alternatives,” said Anthony C. Schnur, the Chief Executive Officer of Lucas. “We are actively and aggressively pursuing options to secure funding through a corporate combination or project financing arrangement. We believe we have made significant progress toward establishing a definitive path forward. Management remains confident that a suitable solution will be agreed upon in the coming weeks and resulting public announcement at the appropriate time.

Over the past six weeks, we have slashed our general and administrative and operating expenses by approximately \$160,000 per month, or about \$2 million per year. Our production has been maintained at current levels considering natural declines, and we continue to anticipate drilling on our Eagle Ford shale acreage in Karnes County as soon as we are able to finalize alternative financing arrangements.”
