Camber Energy, Inc. Announces One-for-Twenty-Five Reverse Stock Split

HOUSTON, TX / ACCESSWIRE / December 19, 2018 / Camber Energy, Inc. (NYSE American: CEI) (“Camber” or the “Company”) based in Houston, Texas, a growth-oriented, independent oil and gas company engaged in the development of crude oil, natural gas and natural gas liquids, today announced that, its Board of Directors has approved a 1-for-25 reverse stock split of the Company’s (a) authorized shares of common stock; and (b) issued and outstanding shares of common stock. The reverse stock split will be effective as of the open of the market on December 24, 2018.

The reverse split will result in each outstanding twenty-five pre-split shares of common stock automatically combining into one new share of common stock without any action on the part of the shareholders. The total number of outstanding common shares will be reduced from approximately 147 million to approximately 5.9 million shares. The Company’s authorized number of shares of common stock will also be proportionately decreased from 500,000,000 to 20,000,000 shares as a result of the reverse stock split and pursuant to Nevada Revised Statutes (NRS) [Section 78.207](#). No fractional shares will be issued as a result of the reverse split as any fractional shares resulting from the reverse split will be rounded up to the nearest whole share on a per shareholder basis.

The Board of Directors of the Company approved the action in accordance with Nevada law (NRS [Section 78.207](#)) on December 19, 2018. No additional Company or shareholder approval is required because both the number of authorized shares of common stock and the number of outstanding shares of common stock will be proportionally reduced as a result of the reverse split, and the reverse split will not adversely affect any other class of stock of the Company and the Company will not pay money or issue scrip to shareholders who would otherwise be entitled to receive a fractional share as a result of the reverse split. The reverse split will have no effect on the Company’s authorized preferred stock, except to affect, where applicable, the conversion rates and voting rights of such preferred stock.

The reverse stock split will not impact any shareholder’s percentage ownership of Camber or voting power, except for minimal effects resulting from the treatment of fractional shares.

Camber’s shares of common stock will continue to trade on the NYSE American (“NYSE”) under the symbol “CEI” but will trade under a new CUSIP Number, 13200M 300. The reverse stock split is intended to increase the market price per share of Camber’s common stock in order to comply with the NYSE continued listing standards relating to minimum price per share. The reverse stock split will not cure Camber’s non-compliance with the NYSE continued listing rules regarding minimum levels of stockholders’ equity as described in prior filings.

ClearTrust, LLC, Camber’s transfer agent, will act as the exchange agent for the reverse stock split. Please contact ClearTrust, LLC for further information at (813) 235-4490.

Mr. Louis Schott, the Interim Chief Executive Officer of the Company, stated “The reverse split should enable us to satisfy the NYSE American minimum share price requirements required for the continued listing of our common stock on the NYSE American which we believe will help us facilitate acquisitions in the future. We are actively considering various acquisitions which we believe will be accretive to shareholders. We consider this a purely mechanical change that does not impact our strategy, business plans, liquidity, operations or the intrinsic value of our shares.”
